DETAILED ACTION

The amendment of December 16, 2005 is hereby acknowledged and entered.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Election/Restrictions

Applicant elected Group I, creatine monohydrate and dextrose, in the reply filed on July 11, 2005 is acknowledged.

Claims Pending

Applicant has added claim 21. Claims 1-5, 10-15, 17-18 and 21 are pending.

Claim Rejections - 35 USC § 103

Claims 1-5, 10-15, 17-18, 21 remain/are rejected under 35 U.S.C. 103(a) as being unpatentable over McCabe (US 6,172,114) in view of Portman (US 6,051,236) and in view of the Internet website "Weight Loss Herbs" (2002) as stated in the previous Office action. Applicant's arguments filed December 16, 2005 have been fully considered but they are not persuasive. It is noted to Applicant that the Internet website "Weight Loss Herbs" (2002) has been updated to disclose the prior art date which is January 9, 2002.

McCabe (US 6,172, 114) discloses using creatine monohydrate and a carbohydrate in a supplement, which is useful in increasing muscle strength and power and reducing body fat (column 1, lines 32-47; column 2, lines 10, 48-50; claims 1, 9 and 11). McCabe does not specifically use dextrose as the carbohydrate.

Portman (US 6,051,236) discloses a nutritional composition that contains a carbohydrate, specifically dextrose, for optimizing muscle performance during exercising (column 11, lines 15-22). In addition, cinnamon is added for flavor (column 13, lines 35-36, 46).

The Internet website "Weight Loss Herbs" (2002) discloses that cinnamon has been found to metabolize blood sugar. Cinnamon protects against diabetes, reduces hunger and helps control sugar making it easier to control weight.

Art Unit: 1655

In response to Applicant's arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986). The references show that it was well known in the art at the time of the invention to use creatine, cinnamon and a carbohydrate in a composition for a diet supplement. It is well known that it is *prima facie* obvious to combine two or more ingredients each of which is taught by the prior art to be useful for the same purpose in order to form a third composition which is useful for the same purpose. The idea for combining them flows logically from their having been used individually in the prior art. *In re Pinten*, 459 F.2d 1053, 173 USPQ 801 (CCPA 1972); *In re Susi*, 58 CCPA 1074, 1079-80; 440 F.2d 442, 445; 169 USPQ 423, 426 (1971); *In re Crockett*, 47 CCPA 1018, 1020-21; 279 F.2d 274, 276-277; 126 USPQ 186, 188 (1960).

Based on the disclosure by these references that creatine, cinnamon and a carbohydrate are used in compositions for a diet supplement, an artisan of ordinary skill would have a reasonable expectation that a combination of the substances would also be useful in creating compositions to for a diet supplement. Therefore, the artisan would have been motivated to combine the claimed ingredients into a single composition. No patentable invention resides in combining old ingredients of known properties where the results obtained thereby are no more than the additive effect of the ingredients. See *In re Sussman*, 1943 C.D. 518; *In re Huellmantel* 139 USPQ 496; *In re Crockett* 126 USPQ 186.

Therefore, the rejection is deemed proper and is maintained.

Summary

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 1655

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
